Dear Estell Manor Parents and Guardians:

The Estell Manor School District considers student and staff well-being and health a top priority. We continue to monitor the novel coronavirus (COVID-19) situation and are following the current recommendations posted by the Centers for Disease Control, the NJ Department of Health, and the NJ Department of Education. Our custodial staff will continue to sanitize classrooms daily, as has been their practice. As with any other illness, we urge our students and staff to follow the public health recommendation for being 24 hours fever free without medication before returning to school. We are also taking the following measures:

- A Wellness Committee has been formed to keep up to date with any additional guidance as it becomes available and make recommendations regarding the health and safety of our students and staff.
- Students have received a reminder lesson about the importance of proper hand washing and not touching their face, mouth, nose, or eyes.
- Each classroom will be provided with additional sanitizing wipes that will be used to wipe down common surfaces, such as doorknobs, throughout the day.
- Students are receiving additional time to allow for everyone to wash their hands thoroughly prior to lunch.

Administration and staff will continue to work together to ensure that our facilities are as clean as possible, and the students and staff have a healthy learning and working environment. Please help everyone in doing their jobs by keeping children home when they are sick and sharing information about symptoms of illness that can assist in preventing the spread of communicable diseases. We will continue to stay informed and prepared for future developments, and keep you updated as new information emerges or conditions change.

STOP THE SPREAD OF GERMS

Help prevent the spread of respiratory diseases like COVID-19.

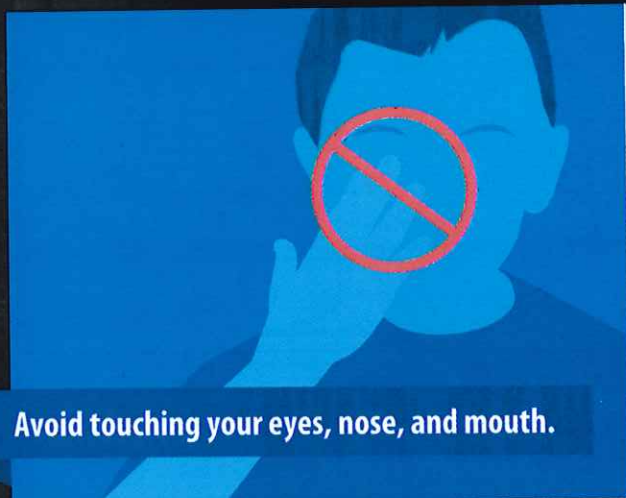

Avoid close contact with people who are sick.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Avoid touching your eyes, nose, and mouth.

Clean and disinfect frequently touched objects and surfaces.

Stay home when you are sick, except to get medical care.

Wash your hands often with soap and water for at least 20 seconds.
